

## LONG DRAWN OUT SIP

Inspired by Gerald Scarfe's 'Long Drawn Out Trip: A Memoir', this menu explores his work through the medium of dreams, both whimsical and nightmarish, in which cocktails serve as liquid doorways to his surreal outlook on the world.

Be they Fears, Revelations, Desires or Transformations, each cocktail embodies a different facet of the subconscious mind, where every element of Scarfe's work collides; from caricatures of cultural icons to design for stage and film to political satire.

Through both ingredients and techniques used in their creation, these cocktails have been shaped by Scarfe's vision; playful yet profound, comforting yet unsettling.

Time to take a Long Drawn Out Sip...
